

The LX-Beam is a small format moving light with eye catching beam effects. It's 60w Osram LED Engine provides intense light output from a large 3.5inch output lens. Pan and tilt feature precise infinite rotation with variable speed. the compact footprint of the LX-Beam makes it easy to use for small venues Permanent installation and larger productions.

Power

Input voltage : 90-240v AC 60/50HZ
 Consumption : 90 Watts
 Lamp type : OSRAM 60w RGBW LED engine
 Connections : PowerCon In & Out

Physical

Size : W:25CM H:35CM D:15CM
 Weight : 5.5Kg / 12.2Lbs.
 Display : LCD display
 IP Rating : IP20
 Mounting : floor & omega quarter turn bracket

Control

Control : DMX, Sound and Auto
 Input : 3 pin XLR
 DMX Footprint : 14 / 16 channels
 Dimming : Electronic dimmer and shutter
 Color : RGBW color mixing
 Movement : 16-bit Pan & Tilt with infinite rotation on Pan & Tilt

Optics

Beam Angle : Fixed 4.5 degrees
 Focus : soft edge beam
 Plastic injection molded, made in France
 Lens: France
